PROJECTS

KrishiConnect - Agricultural Information Portal | *JavaScript, React.js, HTML/CSS, Vercel*   *Apr 2025*

- Developed and integrated a real-time weather forecasting feature using third-party weather APIs, enhancing the platform's utility for location-based decision making.
- Collaborated with a cross-functional team of 4 to deploy a full-stack React-based portal hosted on Vercel, ensuring seamless user experience and responsiveness.
- Facilitated access to real-time agricultural insights—covering government schemes, news, and articles—enhancing awareness among rural users.
- Ensured component modularity and reusability using React best practices, leading to 25% reduction in development time for feature updates.

Facial Analysis and Smart Prediction System | *Python, Redis, Streamlit, InsightFace Models*   *Oct 2023*

- Engineered a real-time object detection system using InsightFace and OpenCV, achieving 98% accuracy in identifying objects across diverse datasets, while adhering to strict cybersecurity standards.
- Integrated InsightFace Buffalo_L model for face recognition and feature extraction, improving detection accuracy by 18% over baseline.
- Designed and deployed a Streamlit-based user interface, enabling real-time interaction with minimal latency.
- Tested and validated the model on a dataset of 1000+ images with varied lighting and backgrounds to ensure robustness.

EXPERIENCE

Null Student Chapter, VIT Bhopal *Feb 2024 – Mar 2025*
Core Member, PR and Outreach Team | Cyber Security Awareness Club, Bhopal
- Orchestrated 3+ cybersecurity awareness events as an active PR Team Member.
- Coordinated promotional efforts, led outreach campaigns across social media and campus for club events that attracted over 100 participants per event; helping increase club visibility by 40% and a 30% rise in student membership within one semester.
